

MAZARI
CONTRACTING LLC

MEP ENGINEERING SERVICES

About Us

Mazari Contracting LLC, is a leading service company in Dubai, UAE, specializing in Mechanical, Electrical and Plumbing (MEP) Building Services with over 40 years of combined experience. Driven by a team of highly experienced and professional individuals focused to deliver and maintain high-quality MEP services that have become synonymous with the Mazari Contracting LLC.

Operating for over 15 years in the Middle East, our highly qualified and technically experienced engineers, supervisors and technicians helped us to work with some of the leading organizations in the industry. We execute projects of various sizes for commercial, residential and industrial usage.

With knowledge and experience supported by innovative modern methods and technologies, we aim to sustain our competitive edge delivering quality with cost-effective proposals and tailoring projects to specific needs. Believing that anything is possible, and succeeding is the inspiration that drives Mazari and its exceptional management team to exceed all expectations which is our vision and passion.

We continually commit ourselves to the highest quality, and HSE standards and meeting the deadlines on time. Our goal is to provide superior quality services and peace of mind knowing that your work is in safe hands and executed in a professional manner. It is this vision and excellent project delivery that has become our core strength behind our success, as we aspire to continually challenge, defy, and contribute to leading Mazari into the future, and delivering unparalleled service.

Our Vision

We aim to become one of the top MEP contracting companies in the Middle East with an ethical and professional manner to earn the privilege of being the Contractor of choice. We are committed to delivering outstanding value through quality, reliability, and innovation – building strong relationships and lasting trust with every project we undertake.

Our Mission

To deliver high-quality, cost-effective works on schedule and enhance our customer satisfaction through continual improvement of our business practices in terms of safety, quality, services, delivery as per client expectation, environmental protection as well as the international expansion of our business.

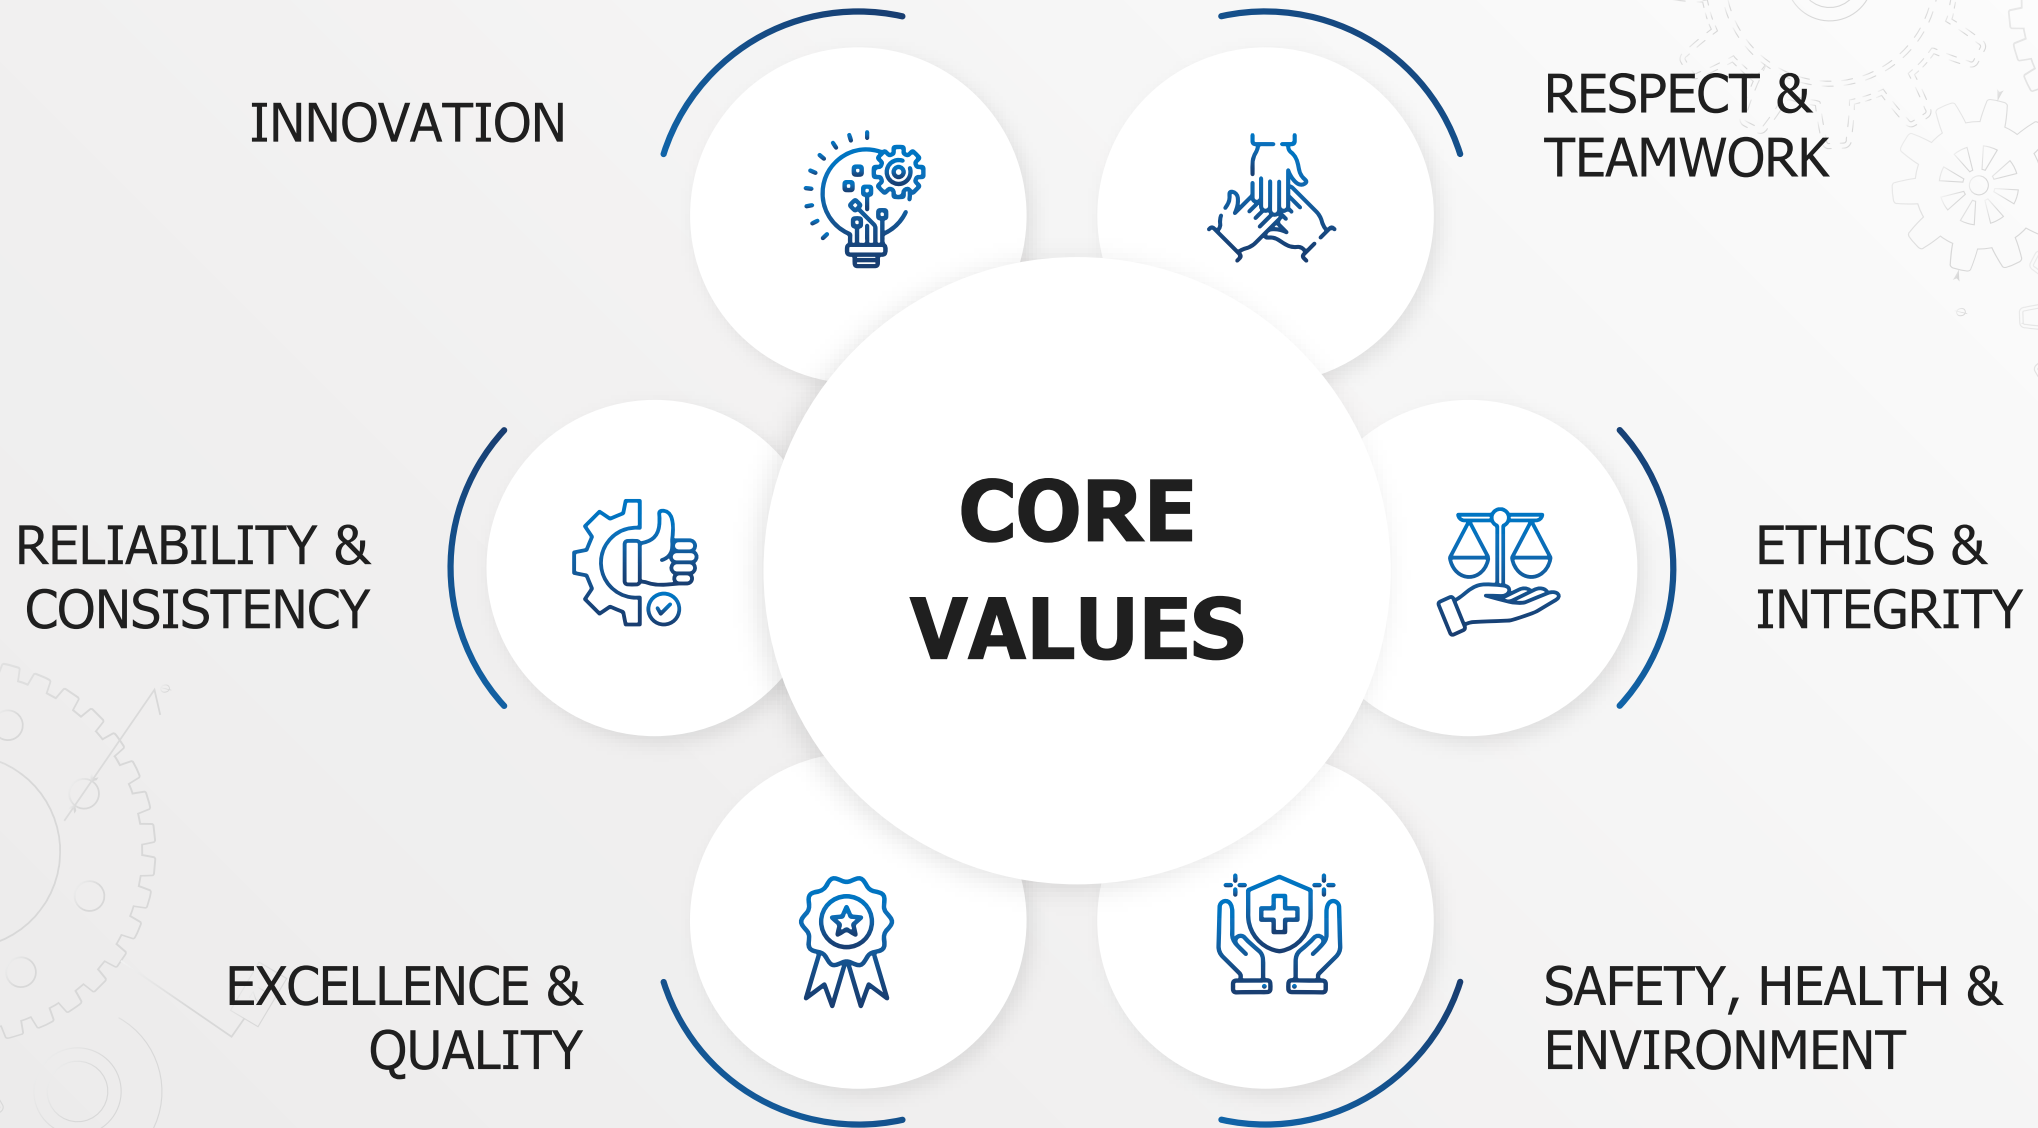

Quality Policy

We aim to attain business excellence in infrastructure works by meeting and exceeding our customer's expectations in terms of quality, timely completion and safety with absolute compliance to relevant regulatory and obligatory requirements. Our goal is to remain the preferred contractor by continuous improvement with proper adherence to the Quality Management System.

Quality Objectives

Ensure continued satisfaction of our customers by meeting and complying with their requirements as well as the relevant statutory and regulatory requirements strive for improvements through continuous review and enhancement of our system effectiveness. Ensure that our service is cost effective, reliable, timely and of the highest quality.

Enhance the skills and competences of our employees in order to be able to effectively respond to the ever-changing requirements of the industry and our clients.

Mazari Contracting LLC provides maintenance services throughout Dubai, UAE. Whether your property is commercial, multi-family residential, or anything in between, we are offering our high quality professional maintenance service at your door. We have trained and licensed experts to provide exceptional customer service.

Best Maintenance Services in Dubai at Your Door. Our multi services include each & every type of general service related to your residential, commercial requirement, which include cleaning, technical service, inspection, emergency service and so on. We are just a call away to help you out in any emergency.

We are one of the top maintenance companies serving our clients for both emergency and routine jobs. We are responsible to ensure everything is doing well in your home.

IT CONSULTING

IT CONSULTING :

Structure Cabling System

Master Clock System

Nurse Call System

CCTV System

Audio Video Intercom System

Wireless Network System

Parking Management System

IPTV System

Queue Management System

Our consultants work in partnership with the customers, advising them during the evolution of IT solutions in order to meet business objectives. It works with the key stakeholders to understand technology & business challenges to improve the structure and efficiency of IT systems within organization.

A lighting control system is an intelligent network-based lighting control solution that incorporates communication between various system inputs and outputs related to lighting control with the use of one or more central computing devices.

System manages divergent scenarios in each guest room, including welcome, living and sleeping settings. Lighting, temperature and curtains can be controlled to suit the activity of the occupant. Settings can either be adjusted in the room by the guest or centrally via the hotel management system.

Muhammed Zeeshan Khan (Operations Manager)

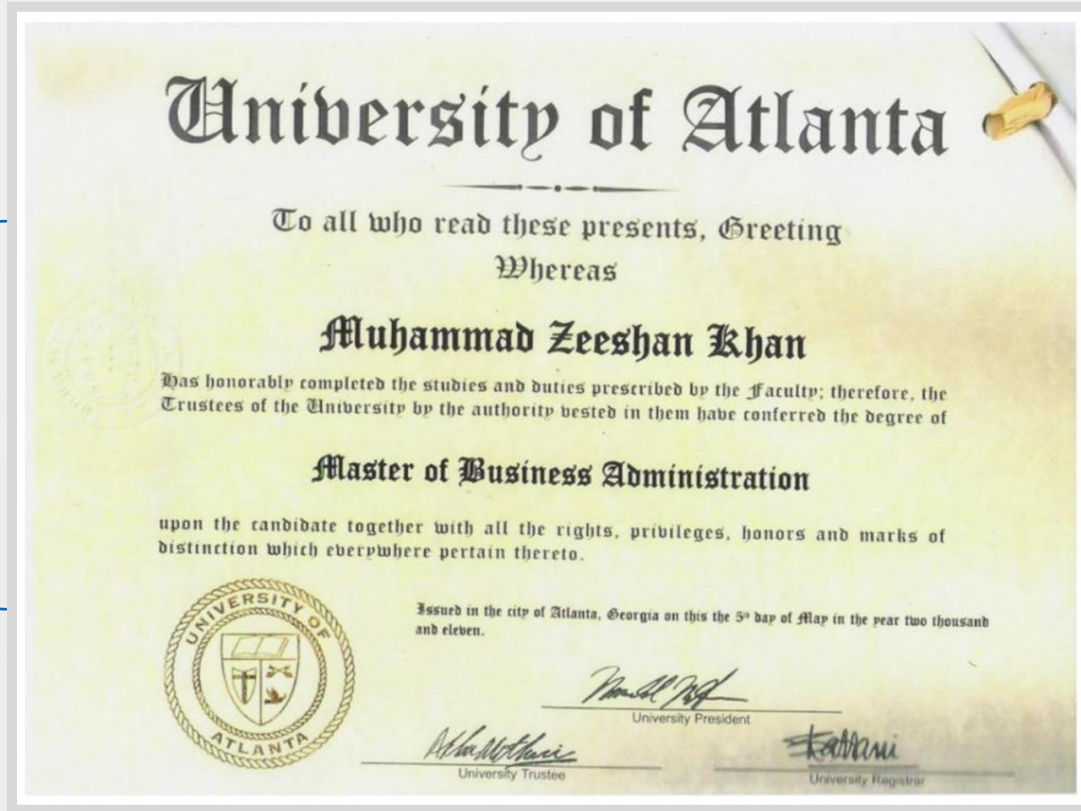

SHORT BIO

Zeeshan has extensive 15+ years experience in the management of high end MEP works in the Dubai market. His portfolio includes iconic and prestigious projects for High profile clients. He has operated both on a client facing and contractor basis comfortably and has excellent communications and documentation skills. He is practical, hands-on and focused, with a positive attitude and a good man-management record, while also developing strong problem solving traits.

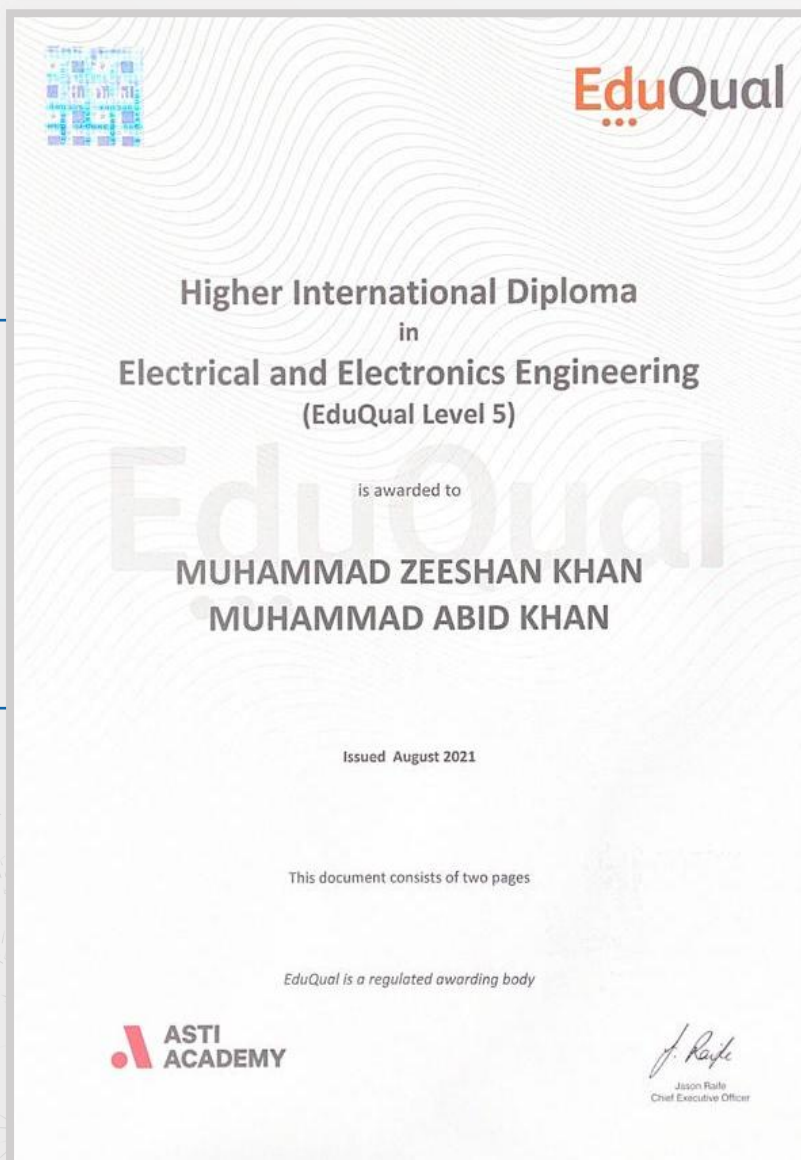

SKILLS :

- Key part of the management team
 - Oversees high-level HR duties
 - Training standards and hiring procedures
 - Analyzation and improvisation of organizational processes
 - Self improved and improving the management in terms of quality, productivity and efficiency.
- Provides inspired leadership for the organization
 - Makes important policy, planning and strategy decisions
 - Develops, implements and review operational policies and procedures
 - Ability to promote company culture that encourages top performance and high morale
 - Technical knowledge, Decision making and problem solving skill.

QUALIFICATION/ CERTIFICATES - ZEESHAN

QUALIFICATION/ CERTIFICATES - ZEESHAN

This certificate is issued by EduQual. EduQual is a UK awarding organisation which develops and accredits qualifications designed to meet the needs of learners and industry sectors and to provide individuals with opportunities for personal and professional development.

EduQual qualifications are based on the EduQual Qualifications Framework which consists of Diplomas, Awards and Certificates following levels set by regulatory authorities.

The following table draws broad comparisons, rather than direct equivalences, between a variety of different qualification frameworks. Level descriptions are not provided.

EduQual Qualifications Framework Level	HQF/SCQF/NCQF Level	Scottish Credit & Qualifications Framework (SCQF) level	European Qualifications Framework (EQF) level	Framework for Higher Education Qualifications (FHEQ)	Examples of Qualifications
8	8	12	8	8	Doctoral degree
7	7	11	7	7	Master's degree; EduQual Postgraduate Diploma/Certificate/Award
6	6	9/10	6	6	Bachelor's degree (Hons); EduQual Graduate Diploma/Certificate/Award
5	5	8	5	5	Higher National Diploma; EduQual Advanced Professional Diploma/Certificate/Award
4	4	7	5	4	Higher National Certificate; EduQual Professional Diploma/Certificate/Award
3	3	6	4	n/a	EduQual Advanced Diploma/Certificate/Award
				n/a	EduQual Intermediate Diploma/Certificate/Award
				n/a	EduQual Foundation Diploma/Certificate/Award
				n/a	EduQual Entry Diploma/Certificate/Award
				n/a	

The bottom section of the image shows a sample certificate from the Knowledge Development Authority (KDA) in Dubai, awarded to MUHAMMAD ZEESHAN KHAN for a Higher International Diploma in Electrical & Electronic Engineering (EduQual Level 5) at ASTI Academy. It includes a QR code, contact information for ASTI Academy, and the KDA logo. Below this is the EduQual logo and the text: "This certificate is the property of EduQual. Any alteration renders it invalid and could constitute a criminal offence. www.eduqual.org.uk 00420".

Shahid Iqbal (Operations Manager)

SHORT BIO

He is a technical savvy with 15+ years of experience in MEP. His technical knowledge and management helps the company to achieve our dreams and goals. He is also part of HR team when necessary. He directly or indirectly implements his experience and ideas to the projects which makes every project of ours a success.

SKILLS :

- Oversees budgeting, reporting, planning and auditing
 - Implementing methods to improve operational quality and customer satisfaction within the organization
 - Ability to work with board of directors and determine the values and mission, and plan for the goals
 - Ability to Identify and address the problems
 - Keeping a good alliance with other organizations
- Technical skills to identify the issues, propose the solution and decision making
 - Project planning, project management and project execution
 - Quality assurance and quality control
 - Human resources

Muhammad Kamran Khan (Project Engineer)

SHORT BIO

One of our most talented MEP engineer, Kamran is our senior project manager with 10+ years of experience. His hard working mentality and enthusiasm helped us achieve many things in the past few days. His technical knowledge must be highlighted because of the success rate he has in his career.

SKILLS :

- Specialized in electrical drawings.
- Load calculation and schedules.
- Document submission and approvals.
- Estimation.
- Implementing measures to improve productivity and solving work problems.

- Monitoring daily progress reports and site reports.
- Project management skills.
- Multiple language proficiency.
- Leadership and decision making.
- Monitoring and inspection.
- Project planning, handling and execution.
- Implementing collection and recovery strategy.

MUHAMMAD IMRAN KHAN (Project Engineer)

SHORT BIO

Imran is a well experienced MEP engineer who have been working us since 2019. He has successfully handed over 5+ commercial and residential projects. He is skilled at project handling and documentation.

SKILLS :

- Keeping up with the schedule.
 - Documentation.
 - Keeping up the quality as per the standards.
 - Analyzing and decision making skills.
 - Leadership.
- Technical proficiency.
 - Stability and consistency in handling the projects.
 - Assistance during the inspections.

Aamir Ali Bangash (Purchasing Executive)

SHORT BIO

Seasoned Purchasing Executive with 20+ years of experience in procurement, vendor management, and cost control, ensuring efficient and timely sourcing across diverse industries.

SKILLS :

- Strong ability to secure favorable terms and build long-term supplier relationships
 - Expertise in managing end-to-end purchasing processes efficiently.
 - Proven track record of reducing expenses through strategic sourcing.
- Skilled in maintaining optimal stock levels to avoid shortages or overstocking.
 - Adept at analyzing trends to make informed buying decisions.

Naveed Qureshi (Accountant)

SHORT BIO

Experienced Accountant with 10+ years of expertise in financial reporting, budgeting, and compliance, ensuring accuracy and efficiency in all accounting operations.

SKILLS :

- Proficient in preparing accurate statements and balance sheets
- Skilled in planning and monitoring budgets to support financial goals.
- In-depth knowledge of tax regulations and timely filing.
- Strong in bank and account reconciliations for error-free records.
- Experienced with accounting systems like QuickBooks, Tally, or SAP.

Prakash Pichayya (Accountant)

SHORT BIO

Experienced Accountant with 10+ years of expertise in financial reporting, budgeting, and compliance, ensuring accuracy and efficiency in all accounting operations.

SKILLS :

- Proficient in preparing accurate statements and balance sheets.
 - Leadership.
 - Skilled in planning and monitoring budgets to support financial goals.
 - In-depth knowledge of tax regulations and timely filing.
 - Strong in bank and account reconciliations for error-free records.
- Experienced with accounting systems like QuickBooks, Tally, or SAP.
 - Strong in bank and account reconciliations for error-free records.

Sanjay Kumar (Marketing Executive)

SHORT BIO

Digital Marketing Specialist with 3+ years of experience in driving brand growth through strategic online campaigns, SEO, and data-driven performance marketing.

SKILLS :

- Expertise in optimizing content and ads to boost visibility and traffic.
 - Skilled in managing campaigns across platforms like Facebook, Instagram, and LinkedIn.
 - Proficient in PPC strategy, tracking, and performance analysis.
 - Technical proficiency.
- Experienced in creating engaging content that aligns with brand goals.
 - Strong in lead nurturing through targeted and automated email campaigns.

Mohammed Musthaq (Senior Project Manager)

SHORT BIO

Musthaq has been working on numerous contracts to the present date. Multiple projects have been completed during his time at the company involving DM, DCD, DDA and DEWA zoning authorities.

SKILLS :

- Quality assurance and quality control.
- Leading a team of site engineer, supervisors and technicians and coordinating with different departments within the company to maintain efficient flow of work activities.
- Technical experience.
- Review and analysis of MEP drawings and schedule/ program of work.
- Leadership in meetings and discussions.
- Planning and execution of projects.
- Internal inspection skills.
- Close coordination with project engineers
- Problem identification and solving.
- Communication skills.

Mushil Haneefa (Senior Project Engineer)

SHORT BIO

Haneefa has been a contributing factor to keep the growth, quality and progress of the company. His 6+ years of work experience makes it easy for him to manage and handover the projects

SKILLS :

- Keeping up with the schedule.
 - Liaison with sub-contractors, suppliers and vendors in order to meet daily site requirement.
 - Site measurements and procurement of materials in collaboration with procurement department.
 - Documentation.
- Analyzing and decision making skills.
 - Leadership.
 - Technical proficiency.
 - Stability and consistency in handling the projects.
 - Assistance during the inspections.
 - Keeping up the quality as per the standards.

Syed Mohammad Salman (Senior Project Engineer)

SHORT BIO

Salman has over 7+ years of experience in the MEP Field. He has been a contributing factor to keep the growth, quality and progress of the company

SKILLS :

- Analyzing and decision-making skills.
- Leadership.
- Technical proficiency.
- Stability and consistency in handling the projects.

- Assistance during the inspections.
- Project management skills.

Joji Mundenkunnel Joy (Senior Project Engineer)

SHORT BIO

Joji has over 5+ years of experience in the MEP Field. He has been a contributing factor to keep the growth, quality and progress of the company.

SKILLS :

- Review and analysis of MEP drawings and schedule/ program of work.
- Leadership in meetings and discussions.
- Planning and execution of projects.
- Project management skills.
- Analyzing and decision making skills.

- Leadership
- Technical proficiency.
- Stability and consistency in handling the projects.

Abdul Saheed (Project Engineer)

SHORT BIO

Saheed is experienced estimation engineer skilled in analyzing project specifications and providing accurate cost estimates for construction projects. Strong expertise in MEP systems and a focus on optimizing project costs. Committed to delivering projects within budgetary constraints and continuously improving estimating processes.

SKILLS :

- Analyze project plans, specifications, and documents to understand the scope and requirements of construction projects.
- Prepare detailed cost estimates for labor, materials, equipment, and other resources needed for the project.
- Conduct quantity take offs by examining project drawings and specifications to determine material quantities.
- Research and gather pricing information from suppliers and subcontractors for accurate cost estimation.

Aboubaker Yaseen (Project Engineer)

SHORT BIO

Aboubaker is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Conduct site inspections to monitor the progress of MEP works and ensure compliance with project specifications and codes.
- Coordinate with contractors, consultants, and project teams to ensure the smooth implementation of MEP systems.
- Oversee the installation, testing, and commissioning of MEP systems on construction sites.
- Resolve technical issues and provide solutions to ensure the proper functioning of MEP systems.

Albin George (Project Engineer)

SHORT BIO

Albin is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Manage and supervise MEP subcontractors on-site to ensure adherence to project plans and specifications.
- Coordinate with architects, engineers, and other stakeholders to integrate MEP systems with the overall project design.
- Review and approve shop drawings, material submittals, and equipment selections for MEP systems.
- Ensure compliance with safety protocols and regulations during the installation and operation of MEP systems.

Dennis Joseph (Project Engineer)

SHORT BIO

Dennis is experienced MEP Engineer with 04+ years of expertise in designing, executing, and managing mechanical, electrical, and plumbing systems for residential, commercial, and industrial projects.

SKILLS :

- Proficient in creating efficient and compliant mechanical, electrical, and plumbing layouts.
- Skilled in overseeing site execution, coordination, and timely project delivery.
- Strong command of design and drafting tools for precise planning.
- Experienced in preparing BOQs and cost-effective solutions.

Shahid Afrid (MEP Design Engineer)

SHORT BIO

Shahid is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Manage and supervise MEP subcontractors on-site to ensure adherence to project plans and specifications.
- Coordinate with architects, engineers, and other stakeholders to integrate MEP systems with the overall project design.
- Review and approve shop drawings, material submittals, and equipment selections for MEP systems.
- Ensure compliance with safety protocols and regulations during the installation and operation of MEP systems.

MD Asif Ansari (Project Engineer)

SHORT BIO

Asif is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Manage and supervise MEP subcontractors on-site to ensure adherence to project plans and specifications.
- Coordinate with architects, engineers, and other stakeholders to integrate MEP systems with the overall project design.
- Review and approve shop drawings, material submittals, and equipment selections for MEP systems.
- Ensure compliance with safety protocols and regulations during the installation and operation of MEP systems.

MD Abdul Nihal (Project Engineer)

SHORT BIO

Experienced Project Engineer with 05+ years of expertise in planning, executing, and managing construction and engineering projects. Skilled in site supervision, team coordination, and ensuring timely, cost-effective, and quality project delivery.

SKILLS :

- Expert in developing and managing project timelines and milestones.
- Skilled at leading multidisciplinary teams to achieve project goals.
- Ensures adherence to project specifications and standards.
- Proficient in budgeting, cost estimation, and controlling expenses.

MD Naseeh (Project Engineer)

SHORT BIO

Highly experienced Site Engineer with over 05+ years managing on-site construction activities, ensuring safety, quality, and compliance with project specifications. Expert in supervising teams, coordinating with stakeholders, and delivering projects within schedule and budget.

SKILLS :

- Overseeing daily construction activities to maintain progress and quality.
- Implementing and enforcing safety protocols on-site.
- Interpreting and applying engineering plans accurately.
- Coordinating labor, materials, and equipment effectively.
- Conducting inspections and ensuring workmanship meets standards..

Nikhil Mohan (Project Engineer)

SHORT BIO

Nikhil is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Manage and supervise MEP subcontractors on-site to ensure adherence to project plans and specifications.
- Coordinate with architects, engineers, and other stakeholders to integrate MEP systems with the overall project design.
- Review and approve shop drawings, material submittals, and equipment selections for MEP systems.
- Ensure compliance with safety protocols and regulations during the installation and operation of MEP systems.

Sayed Ahmed Ibrahim (Project Engineer)

SHORT BIO

Dedicated Site Engineer with 08+ years of extensive experience overseeing construction projects from ground-breaking to completion. Skilled in coordinating site activities, ensuring compliance with design specifications, health and safety standards, and quality requirements. Proven ability to manage multiple teams, liaise with contractors and clients, and troubleshoot site issues to keep projects on track, within budget, and delivered on time.

SKILLS :

- Expert in supervising site operations, workflow, and workforce to ensure smooth project execution.
- Strong focus on implementing rigorous safety protocols and regulatory compliance on site.
- Accurate reading and implementation of architectural, structural, and MEP drawings.
- Performing regular inspections and quality checks to ensure adherence to standards.
- Efficient handling of materials, equipment, and labor resources to optimize productivity.

Gebriel Ambattu (MEP Estimation Engineer)

SHORT BIO

Gebriel is experienced estimation engineer skilled in analyzing project specifications and providing accurate cost estimates for construction projects. Strong expertise in MEP systems and a focus on optimizing project costs. Committed to delivering projects within budgetary constraints and continuously improving estimating processes.

SKILLS :

- Analyze project plans, specifications, and documents to understand the scope and requirements of construction projects.
- Prepare detailed cost estimates for labor, materials, equipment, and other resources needed for the project.
- Conduct quantity take offs by examining project drawings and specifications to determine material quantities.
- Research and gather pricing information from suppliers and subcontractors for accurate cost estimation.

MD Afatab Alam (Estimation Engineer)

SHORT BIO

Aftab is our experienced estimation engineer with 5+ years of experience in the engineering and construction industry. With a bachelor's degree in Mechanical Engineering, Aftab brings a wealth of expertise in cost estimation, budgeting, and project management to our team.

SKILLS :

- Reviewing project plans and specifications to determine the scope of work required and the materials and equipment needed for the project.
- Analyzing construction and engineering data to determine project costs, including labor, materials, and equipment costs.
- Consulting with project managers, engineers, and contractors to obtain information about project requirements, budgets, and timelines.
- Developing cost estimates and budgets for projects, including preparing detailed cost breakdowns and determining contingency funds.

Joby Antony (Estimation Engineer)

SHORT BIO

Detail-oriented Estimation Engineer with over 5 years of experience preparing accurate cost estimates and BOQs for construction projects. Skilled in analyzing drawings, coordinating with teams, and supporting cost-effective project planning.

SKILLS :

- Expertise in developing precise cost estimates and budgets for large-scale projects.
- Skilled in detailed quantity takeoffs and documentation for tendering and procurement.
- Proficient in assessing bids and selecting vendors based on cost and quality.
- Ability to identify cost saving opportunities without compromising quality or scope.

Vipin Pavithran (Mep Design Head)

SHORT BIO

Vipin is our longest running Design engineer, having been with us designing with his ideas and executing the works. With his 15+ years of experience in MEP designing, coordinated drawings, it makes site execution easier and thus less time consuming.

SKILLS :

- Developing and reviewing detailed design documents, drawings, and specifications.
- Overseeing value engineering and cost optimization without compromising quality.
- Managing client communications, presentations, and design approvals.
- Ensuring quality control and adherence to project schedules and budgets.
- Mentoring junior engineers and fostering professional development.
- Implementing sustainable design practices and energy-efficient solutions.

Alfi Mohammed (MEP Design Head)

SHORT BIO

Seasoned MEP Design Head with over 15+ years of experience leading the design and execution of mechanical, electrical, and plumbing systems for large-scale projects. Expert in managing multidisciplinary design teams, coordinating complex engineering workflows, and ensuring compliance with industry standards and client requirements to deliver efficient, sustainable, and innovative MEP solutions.

SKILLS :

- Leading MEP design teams and managing project workflows.
- Expertise in HVAC, electrical distribution, plumbing, and fire protection system design.
- Proficient in design software such as AutoCAD MEP, Revit MEP, and BIM tools.
- Strong knowledge of local and international codes, standards, and regulations.
- Coordinating with architects, structural engineers, and contractors for integrated design solutions.

Mahroof Kelampulakkel (MEP Design Engineer)

SHORT BIO

Creative and detail-focused Design Engineer with over 5 years of experience developing innovative and efficient designs in mechanical/electrical/structural engineering. Skilled in CAD modeling, drafting, and collaborating with cross-functional teams to deliver projects that meet client requirements and industry standards.

SKILLS :

- Proficient in AutoCAD, SolidWorks, Revit, and other design software for creating detailed 2D drawings and 3D models.
- Skilled in developing, reviewing, and refining engineering designs to meet functional and safety requirements.
- Experienced in preparing clear, accurate technical drawings and design documentation for manufacturing and construction.
- Knowledgeable in conducting basic structural and mechanical analysis to ensure design integrity and efficiency.

Mohammad Shahid (MEP Design Engineer)

SHORT BIO

Shahid is a well experienced MEP engineer, specialized in MEP shop drawings, as-built drawings and documentation.

SKILLS :

- Collaborating with customers, project managers, and other engineers to understand project requirements and specifications.
- Developing designs and technical drawings using computer-aided design (CAD) software, including 2D and 3D models.
- Conducting feasibility studies and testing prototypes to evaluate design concepts and ensure they meet performance and safety requirements.
- Selecting materials, components, and suppliers based on cost, quality, and availability.

Vino Mickle M (Project Engineer)

SHORT BIO

Vino is a well experienced MEP engineer, specialized in MEP shop drawings, as-built drawings and documentation.

SKILLS :

- Specialized in Electrical, HVAC drawings.
- Specialized in FA and FF drawings.
- Heat load calculation, Electric load calculation and load schedules.
- MEP coordinated drawings.
- Documentation and reporting skill.

Shamimudheen (MEP Design Engineer)

SHORT BIO

Detail-oriented Mechanical Design Engineer with 4+ years of experience in creating innovative and efficient mechanical components and systems. Proficient in 3D CAD modeling, simulations, and developing manufacturing-ready designs that meet industry standards and client requirements.

SKILLS :

- Proficient in 3D CAD software like SolidWorks, AutoCAD Mechanical, and CATIA.
- Expertise in mechanical component and assembly design, including tolerance analysis
- Problem-solving to optimize designs for cost, performance, and manufacturability
- Supporting prototyping, testing, and product validation phases

MD Fazilkommu (MEP Design Engineer)

SHORT BIO

Albin is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Proficient in CAD software like AutoCAD and SolidWorks for creating 2D drawings and 3D models.
- Skilled in designing mechanical parts, assemblies, and systems for manufacturing.
- Able to prepare detailed technical drawings with dimensions, tolerances, and materials specified.
- Knowledge of design standards and safety requirements to ensure reliable and safe products.

Praveen Bokati (MEP Design Engineer)

SHORT BIO

Praveen is experienced MEP site engineer with a strong track record in managing mechanical, electrical, and plumbing systems. Reliable, detail-oriented, and focused on delivering projects on time and within budget.

SKILLS :

- Proficient in AutoCAD, SolidWorks, Revit, and other design software for creating detailed 2D drawings and 3D models.
- Familiar with industry codes and standards to ensure designs meet regulatory and quality requirements.
- Strong ability to troubleshoot design challenges and propose innovative solutions.
- Involved in prototype development and testing phases to validate designs.
